SAVITRI WOODS

It all started nineteen years ago when the founders decided to venture into supply of core veneers and other raw materials to the plywood and panel industry. With an innate focus on supreme quality, ethical, transparent business processes and a firm commitment to deadlines helped the company gain adequate attention and precious faith. Since its inception, the company has been steadily growing, regularly widening, diversifying and serving the plywood and panel industry in India. Producing defect free panel, which is strong, durable, safe and able to withstand all adversities, has gradually made Savitri Woods, a preferred partner for a large number of interior designers, realtors and builders. Being located amidst the fertile terrestrial and an ultra-suitable habitat for Eucalyptus, geographical advantage supports the company to avoid substantial transportation costs which eventually translates into the efficient and economical product pricing.

Accredited with certifications like BIS, ISO, OHSAS, CE, FSC & with technical support from IPIRTI, Savitri Woods acquires its logs from the sustainably managed forests and plantations to reciprocate its ecological responsibility, legal accountability and adherence to global benchmarks.

MAKING **PREMIUM** **GRADE PLYWOOD** as it should be

Manufactured in India's most advance plant that has less manual handling and more mechanical manufacturing process. WIGWAM is made with utmost care and perfection to avoid any manufacturing defect in final panel.

CERTIFICATIONS AND ACCREDITATIONS

WIGWAM is enabled with all the required, relevant, and latest certifications which support it to operate, thrive and remain strong in the plywood solutions industry.

- IS 303 : BIS Specification for Moisture Resistant Plywood and Boiling Water Resistant Plywood.
- IS 710 : BIS Specification for Boiling Water Proof Marine Grade Plywood.
- IS1659 : BIS Specification for Block Boards.
- IS 2202 : BIS Specification for Water Proof Flush Doors. (Part-1)
- IS 1328 : BIS Specification for Veneered Decorative Plywood.
- IS 5509 : BIS Specification for Fire Retardant Plywood.
- Is10701 : BIS Specification for BWP Structural Grade Plywood.

- ISO 9001:2015 : Quality Management System for meeting customer expectations and delivering consumer satisfaction.
- ISO 14001:2015 : Environmental Management System.

Conform to E1 Formaldehyde Emission Class Lowest formaldehyde emission Obtainable in India

OHSAS 18001:2007 : Occupational Health and Safety Management System.

European Conformity [CE] Certified.

Certified by Forest Stewardship Council [FSC], an international non-profit multi-stakeholder body which promotes responsible management of the world's forests.

Accredited by Indian Green Building Council [IGBC], a non-profit, CII body which promotes, rates and certifies organisations for their green processes and endeavours.

In Technical Support From: INDIAN PLYWOOD INDUSTRIES RESEARCH & TRAINING INSTITUE.

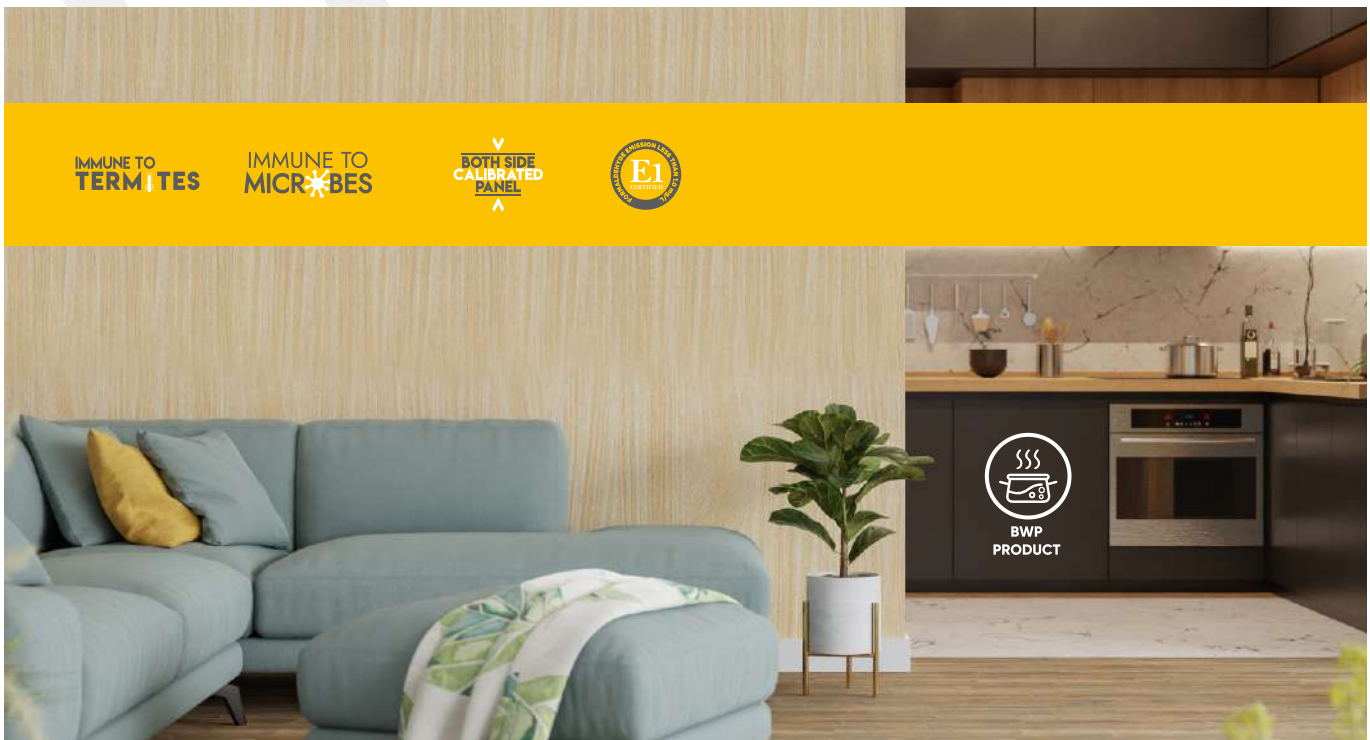

FABRICATE BIRCH

BWP Grade Plywood, IS: 710

Wigwam Fabricate Birch Marine Plywood is the standard bearer when it comes to Plywood. Its combination of looks and strength all combine to make an all-around standout option, and something that is perfect for countless applications. **Wigwam Fabricate Birch** Marine Plywood is made from 100% hardwood timber. It is bonded by BWP type adhesive (E 1) as per IS 848 and pressed with high temperature and line pressure of 240kg/cm². It is pre-treated with glue line poisoned and post treated with eco-friendly preservative chemicals. It contains a preservative component that prevents damage caused by termite, wood borer and fungal decay, offering an extended durability and meets the 72 hours boiling water resistance test as per the BIS 710

Sizes : 8x4

Thickness : 6mm, 9mm, 12mm, 16mm, 18mm, 19mm, 25mm

HIGHLIGHTS :

- Marine Grade
- 100% Hardwood made
- Both side calibrated
- Pre composed core and panels to reduce gaps
- Double surface sanding for superior surface finish
- Immune to Termites
- High Density of 770 - 825kg/m³
- Glue line protection and preservative treatment
- 30 Years Guarantee with 300% Cash Back
- Immune to Microbes

30
YEARS
GUARANTEE
300 % Cash Back

Applications: Kitchen, Wardrobes, Structural Home Building, Subfloors, Shipping Crates, Wall Bracing, Roof Bracing Walls, Outdoor flooring, Roof Linings and Stables, Garden Furniture, etc.

MR Grade Plywood, IS: 303

Wigwam Fabricate Birch MR plywood is ideal for robust interior construction work and thanks to its elegant looks it can be great option for decore work as well. Made from 100% hardwood **Wigwam Fabricate Birch** MR Plywood has density of 770-825 kg/m³ which give the panel a multi-ply edge that offers unparallel strength and stability. Special fortified MUF resin has been used in manufacturing plywood leading to excellent properties of moisture resistance. It contains a preservative component that prevents damage caused by termite, wood borer and fungal decay, offering an extended durability.

Wigwam Fabricate Birch MR plywood has low emission formaldehyde rate E1 class and comes with IS 303 certification.

Sizes : 8x4

Thickness : 6mm, 9mm, 12mm, 16mm, 18mm, 19mm, 25mm

HIGHLIGHTS :

- Moisture Resistant Grade
- 100% hardwood made
- High Density of 770-825 kg/m³
- Borer & Termite Resistant
- Made with Mat Ply
- Both side calibrated.
- Pre-composed core & panels to reduce gaps.
- Glue line protection and preservative treatment
- 30 Years Guarantee with 300% Cash Back

Applications: Kitchen, Wardrobes, Structural Home Building, Subfloors, Shipping Crates, Wall Bracing, Roof Bracing Walls, Outdoor flooring, Roof Linings and Stables, Garden Furniture, etc.

FABRICATE BIRCH

| BWP Grade Blockboard, IS: 1659

Wigwam Fabricate Birch bwp blockboard is a premium quality blockboard made from the most admired imported treated pine wood. This blockboard is made with high quality nonextended phenol formaldehyde resin and meets all the specifications of is 1659 (bwp). Both seasoned wood and pf resin ensures excellent strength. Face veneer of the birch wood increases the durability, strength and overall look of the products. Glue line poisoning method is used extensively to protect blockboard against wood damaging insects like termite and borers. Each blockboard frames are kiln seasoned to 6%-8% moisture content and treated with eco-friendly preservative by dip diffusion treatment method.

Sizes : 8x4

Thickness : 19mm, 21mm, 25mm

HIGHLIGHTS :

- Boiling Water Proof Grade
- Microbiological Decay Resistant
- Made with Mat Ply
- Both side calibrated
- Double surface sanding for Superior surface finish
- 30 Years Guarantee with 300% Cash Back
- Immune to Microbes

30
YEARS
GUARANTEE
300 % Cash Back

Applications: Interior & Exterior Woodwork, Furniture like Wardrobe, dressing table, Shoe rack, Beds, Benches, Temples, sliding panels and doors, partitions in office, indoor panel, shutters and many more.
